

KIST Star Post-doc. Program

The goal of 'KIST Star Post-doc. Program' is to nurture professional research manpower by joining young, creative and active researchers together with experienced researchers at KIST through research collaboration and activities.

KIST (Korea Institute of Science and Technology)

KIST was established in 1966 as the premier multidisciplinary research institute in Korea. Its main goal is to lead Korea's research and development capacity in the field of science and technology, and to nurture young talent. The main campus of KIST is located in Seoul with branch campuses in Gangneung and Jeonbuk, Korea. Its overseas campus, KIST Europe, is located in Saarbruecken, Germany to facilitate collaboration with the European community. KIST is on its way to becoming a leading global institute for the future, contributing to humanity for a more convenient and prosperous world.
