ABOUT EKC

Europe-Korea Conference on Science and Technology (EKC) brings together Korean scientists and engineers working in Europe and in Korea. It also attracts European scientists and engineers interested in collaborating with Korean nationals.

The conference aims to develop friendship, exchange knowledge & ideas, promote science & technology, and serve the human being and the society.

THE HOST

EKC 2018, its 11th conference, will be held in Glasgow, UK from 20th to 24th of August 2018. Its main host is the Korean Scientists and Engineers Association in the UK (KSEAUk). However, like the previous annual events, the conference works closely with the Korean Federation of Science and Technology Societies (KOFST) and other eight affiliates in Europe which are in Germany (VeKNI), France (ASCoF), Austria (KOSEAA), Finland (KOSES), Scandinavia (KSSEA), the Netherland (KOSEANL), Switzerland (KSEAS), and Belgium (KOSEAbel).

EKC HISTORY
